Political GOSSIP

IT IS NOTHING TO ME
By Arnold Linscheid

FOOTBALL
ALL-AMERICANS
Picked by the Metropolitan Daily Newspapers for the Nov. 3 Game

Left End.....Alfred P. Sloan
Left Tackle.....John J. Raskob
Left Guard.....Andy Mellon
Center.....J. P. Morgan
Right End.....Al Smith
Right Tackle..John D. Rockefeller
Right Guard.....Pierre DuPont
Fullback.....Alf Landon
Left Half.....Liberty League
Right Half....U. S. Chamber Com.
Quarterback.....Willie Hearst

* * *

On the bench: Herbert Hoover & Charles-the-nine Dawes.
Second string.....Henry Ford

* * *

Governor Talmadge was injured in Georgia recently, and is permanently out of the game.

* * *

Father Coughlin will be Yell Leader.

* * *

Sammy Insull, an All-American of a decade ago may be on the sideline. Old timers will remember him for his deceptive playing and his Hide-Away trick.

* * *

Some fear is felt for the backfield strength, but it is believed the forward wall of rugged individuals can sweep aside all opposition. It is suggested that, on the first play, Captain Hearst calling the signals will shout: "The Constitution" and Alf Landon is to carry the ball for a touchdown. But if he fails, on second down, Hearst may yell "Communism" and the whole line will plunge forward.

* * *

Should this also fail, for the third down, the entire team may scream "Moscow" in unison, and everybody will run somewhere, carrying something. This is a very deceptive play, a masterpiece in fact. And if it also fails, there is apt to be a change in the lineup. Alf Landon may call the signals for the fourth down and may shout "Results of the Main Election and the Cockeyed Corporation Surplus Tax."

* * *

On this play anything may happen. Some predict an end run, others a kick, but we predict it is to be a pass with no gain and that Roosevelt will get the ball on downs for the next four years. A bit of tragedy may come on this last down if the Literary Digest should send in its reputation as a relief player!

That Man Again

STOP SIGN IS PLACED AT GARRARD-CUTTING BLVD. INTERSECTION

Our thanks are due to the city council of Richmond for their action in replacing the stop-sign at the very dangerous street intersection, where Cutting Boulevard meets Garrard. The sign has been installed on the corner where the hedge of West Side Park obstructs the view.

A FAIR POLL

In this day of multitudinous election polls and straw votes our thanks are due to 'the old democrat,' Gus Lang, who provided us with the poll taken from all retail druggists. Roosevelt wins in the nation: 2,120 to 1,745; in California, 178 to 84; in New York 212 to 165. Every druggist was polled and the replies came back quite uniformly over the nation. Our guess is that this particular poll will come a lot closer to the score than the Literary Digest, unless, as has happened in the last few weeks, the Literary Digest keeps swinging to Roosevelt as it is doing. Remember one thing: The Literary Digest, two years ago, claimed California to go for Merriam, 3 to 1. Actually, Sinclair was counted out, 10 to 9. That's some difference.

PAST COMMANDER'S NIGHT AT THE LEGION

One of the most enjoyable meetings ever held at Richmond Post No. 10 occured last night when the Past Commanders provided the personnel for the officers of the meeting the entertainment and the feed. A large crowd attended. Past Commander Chas. W. W. St. John presided over the meeting; Ruel S. Crose was master of ceremonies for the entertainment; and William Vickery,

(Continued on Page Eight)

NATIVE SONS ACT TO STOP POLLUTION OF BEACHES

Addition of many fine seaside strands needed to round out California's limited system of public beaches is expected to result from adoption of Proposition 4 on the November ballot, Hartley Russell, grand president of the Native Sons of the Golden West, revealed yesterday.

"The number and length of our state-owned beach properties are entirely inadepuate in view of California's vast coast line," said Mr. Russell, who was one of the signers of the affirmative argument to the voters on the initiative to prohibit tideland oil drilling. "Only seventy-five miles of public beach land along a 1200-mile shore line is not enough. Many beautiful shoreside areas could advantageously be added to our state park system.

"California beaches are unique in the variety of scenery which surrounds them. Alternately we find beaches and cliffs, lagoons and sand dunes, with background ranging from mountains and mesas, woodlands and foreste to open fields or chaparral slopes.

"Out-of door sports, like swimming, fishing, boating, hiking, and driving, constantly attract increasing numbers of vacation-time tourists from the less agreeable interior of the nation to the California beaches," Mr. Russell continued. "The Native Sons are for anything of general benefit to California. We want more public beaches and we want them free from oil derricks and oil pollution. A resolution to demand better access to such beaches was adopted at our Santa Cruz convention this year. These are the principal benefits promised

He pointed out that while it halts tideland drilling, the measure will permit orderly and legally-supervised tapping of state

(Continued on Page Eight)

Old Town Hall Form of Meetings To Consider Civic and Economic Problems

A select group of public-spirited individuals met last night at the Washington school auditorium and organized the Richmond Forum which promises to become one of the most interesting assemblies in the city within a very short time.

The idea of the club is to interest those of our citizens who wish to meet and discuss the many vital problems that affect the American citizen today. The membership is open to all, it is non-partisan, and both sides of any question will be considered by the group.

At the initial meeting last night Amendments Nos. 1 to 12 were discussed. It is probable that some will be re-discussed at the next meeting which will be held on Tuesday, October 20th at the Washington school.

California to be a Monarchy?

It seems hardly probable, but preliminary discussion of Governor Merriam's proposed Amendment No. 7 seems to want to provide lifetime jobs for all present county officials, except the district attorney's offices, in all California counties, by blanketing them in under civil service. No more sheriff's elections, or tax collector or clerk or assessor elections, or any such democratic or republican manner of voting them in or out.

(Continued on Page Five)

Tideland Drilling Must End

Tideland oil drilling is forever prohibited by Proposition Number 4 appearing on the ballot in the general election November 3. Initiated by civic organizations, and given throughout the state, the measure provides the backing and the means that enables the state to secure revenue from its oil resources.

Efforts to secure permits to drill in the tidelands have been repeatedly made in the past years in California. Proposition Number 4 seeks to prevent drilling by making it impossible to gain a permit for such drilling without a majority vote of the people.

It is estimated that the state will receive $2,000,000 a year through orderly development of state oil resources by slant drilling authorized by Proposition Number 4. One half is to go into the general fund for the relief of the other half to build up a suitable system of state-owned beaches and parks without cost to the taxpayers.

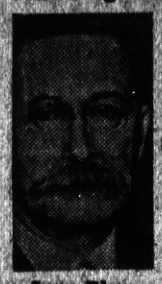

Review of the History-Making Events of the World

By EDWARD W. PICKARD

© Western Newspaper Union.

France Devalues Franc; Gold Standard Dropped

FRANCE at last came to the conclusion that it could no longer support the franc and Premier Leon Blum's government decided to abandon the gold standard and devaluate the franc to between 4½ and 5 cents. The Netherlands, Latvia and Switzerland immediately determined to follow suit. To save the world from a currency war, the United States, Great Britain and France entered into a "gentlemen's agreement." The exact nature of this agreement was not revealed, but the United States promised to employ its $2,000,000,000 stabilization fund to head off the feared struggle. Certain it is that each of the three nations reserves the right to depart from the pact if and when its own interests require such a course. An expected outcome of the now general dropping of the gold standard may be an international conference for stabilization of world currencies. This probably would be held in Washington.

Leon Blum

Blum called a special session of the French parliament to pass the necessary legislation, and his plan was given grudging approval by the chamber of deputies. Its adoption by the chamber, where the "popular front" has a big majority, was taken for granted, but a fight was expected in the senate. The general project was divided into five sections, as follows:

1. Fixes the new gold content of the franc at a point between 43 and 49 milligrams of gold, prohibits the export or import of gold, and creates an equalization fund.

2. Permits the requisition of gold by the government, obliges individual citizens to declare their gold holdings, creates a tax on profits made from devaluation of the franc, and obliges market traders to reveal their operations in foreign exchange since September 20.

3. Creates a movable salary scale and makes various readjustments in the civil service, pension rates, etc.

4. Provides for readjustment of certain specific taxes such as those on oil, coffee, pepper, tea and sugar.

5. Makes certain changes in the debt structure of such public institutions as cities and communes necessitated by devaluation.

From the Chicago Journal of Commerce is taken this plain statement as to what France's action means to the ordinary American citizen:

"Reducing the amount of gold represented by one franc will mean that the average American will be able to travel cheaper in France than for the last two years. French wines should be cheaper in this country and women should be able to buy French perfume for less. That should be true of nearly everything else that France exports to the United States—unless this country hikes the tariff on French exports or French prices boom out of proportion to devaluation. Indirectly, franc devaluation may keep Americans from war as the act may be a wedge for currency stabilization the world over and more brotherly relations between all nations. But don't lose any sleep over it unless you are getting an income from someone in France. In that case, since it will take more francs to buy dollars, your income will be cut. Everyone should have an interest in developing sound foreign trade and if franc devaluation starts the ball rolling in the right direction the eventual hope for development is free foreign exchange movements. It's necessary for one country's money to be negotiable in all capitals of the world if trade is to flow freely. That's the big goal."

Russia Hotly Denies Morgenthau's Charge

SECRETARY OF THE TREASURY MORGENTHAU excitedly told the correspondents that soviet Russia attempted to upset the "gentlemen's agreement" between the United States, Great Britain and France. The state bank of Russia, he said, moved to drive down the price of the pound sterling by ordering the sale in New York of 1,000,000 pounds sterling "at any price." He said he frustrated this scheme by buying the pounds offered with money from the Treasury's stabilization fund.

The Soviet State bank declared Morgenthau's assertion as to the bank's purpose was without foundation and a nonsensical invention; that the transaction was an ordinary banking operation. The secretary's statement, the bank continued, "appears to be an undignified anti-soviet attack which is not based on defense of international currency equilibrium and the value of sterling, but had some other aims."

Considering the repeated charge that President Roosevelt is being supported for re-election by the Communists, the "other aims" seemed clearly discernible to opponents of the administration.

Harry Woodring Named Secretary of War

HARRY H. WOODRING was named by President Roosevelt to be secretary of war, filling the vacancy caused by the death of George H. Dern. This is a recess appointment, for the place had to be filled within thirty days. It may be the President will submit the name of another man to be permanent secretary early in the next session of congress. Those most often mentioned for the place are Gov. Paul V. McNutt of Indiana and Frank Murphy, commissioner to the Philippines, who is running for governor of Michigan. Should Murphy win in the election, McNutt is expected to get the cabinet post.

Woodring, who was Gov. Alf M. Landon's predecessor in office in Kansas, has been acting as head of the War department since Dern died.

Spanish Fascists Capture City of Toledo

GEN. FRANCISCO FRANCO'S furious Spanish Fascists reached the ancient city of Toledo and drove out the government troops with shell and bayonet. The rebels fought their way through strong defense and as they reached the center of the city there was a great shout from the Alcazar. Out of that battered citadel rushed the ragged, battered and half-starved cadets who had withstood a terrific siege for almost ten weeks. This heroic garrison joined the insurgents in charging the defenders and finally the Socialist troops scattered and fled southward over the Tagus river. Their way to Madrid was blocked by Franco's columns.

Gen. Franco

Fascist bombing planes made several destructive raids on Bilbao, killing a large number of the citizens, smashing innumerable buildings and damaging two warships in the harbor. The enraged government sympathizers demanded that Fascist hostages held in the city be executed in reprisal, and finally a mob of anarchist amazons swarmed aboard a vessel on which many hostages were kept and brutally slaughtered 210 of them after putting them to the torture. The savage women were on their way to a prison to kill 60 woman hostages when they were dispersed by civil guards.

That the Spanish government realizes its precarious situation is evidenced by its proclamation ordering Madrid to prepare for a siege, followed by a manifesto calling on everyone, women as well as men, to rally to the defense of the capital.

Spain Warns Nations Not to Interfere

SPAIN'S representative in the League of Nations, Foreign Minister Julio Alvarez del Vayo, solemnly warned other nations members of that body that they must not interfere with the Spanish civil war, which he said forbode a future war, not between states but between political concepts.

"The bloodstained soil of Spain already is the battlefield of world war," he contended in what other delegates construed as an attack on Germany, Italy and Portugal for allegedly arming the Spanish Fascist insurgents. He assailed the European nonintervention agreement as "direct and positive intervention in behalf of the rebels" and as a "blockade of the lawful Spanish government."

British Foreign Minister Anthony Eden, in a rather pessimistic address, said his government stood for an amendment to the league covenant to enable the league to intervene in the early stages of a dispute. He also proposed: Negotiation of regional pacts, separation of the league covenant from postwar treaties, measures to restore international trade; inquiry, under league auspices, into the question of access to raw materials, and reduction and limitation of armaments and publicity for armament expenditures.

Minneapolis Strike of Mill Workers Ends

ABOUT 1,800 mill workers of Minneapolis returned to their jobs, their strike having been settled. It had lasted for a month and had paralyzed the great milling industry of the city. The mill owners agreed to recognize the right of collective bargaining and to permit employees to choose their own representatives. Four hundred national guardsmen who had been mobilized by Governor Petersen for strike duty in event of an emergency were sent to their homes.

Japan Lands Marines in Shanghai

FOUR Chinese gunmen in Shanghai killed one Japanese marine and wounded two others, and within a few minutes a Japanese landing party more than 2,000 strong had occupied much of the Hongkew section of the international settlement. The Japanese naval commander declared martial law in that area and troops stopped buses and street cars in the search for the slayers. Tanks, armored cars, light artillery and machine gun squads poured through the streets and on into Chapei, the Chinese district that was the scene of furious fighting between the Japanese and the Chinese Nineteenth route army in 1932.

Stirling Fessenden, American chairman of the international settlement, was warned by Japanese officials to protect their nationals, and the White Russian volunteer regiment and special police in the French quarter were hurriedly mobilized.

Shigry Kawagoe, Japanese ambassador to China, who was in Nanking conferring with Chang Chun, Chinese foreign minister, on the other recent anti-Japanese incidents at Chengtu, Hankow and Pakhoi, threatened to break off the discussion and return to Shanghai.

"A dark shadow has been cast on future Chinese-Japanese negotiations," he said. "The sole responsibility rests with the national government. The new outrage makes the Nipponese more determined to eradicate anti-Japanese sentiment and thoughts in China, which is entirely lacking in good faith and is face to face with a grave situation. The killings render relations very critical."

Because of killings in Hankow and Pakhoi, Japanese marines already had been landed in those cities. Transports bearing reinforcements arrived from Japan.

Ethiopian Delegates Seated by League

HAILE SELASSIE couldn't whip the Italians in the Ethiopian war, but the fugitive emperor won the battle of Geneva and put Benito Mussolini's nose out of joint. After an exciting debate, the League of Nations assembly voted, 39 to 4, to seat the Ethiopian delegation, now headed by the emperor's American adviser. The negative votes were cast by Hungary, Austria and Albania, all under the thumb of Italy, and Ecuador. Ethiopia, Portugal and four other countries refrained from voting. Rather surprisingly Great Britain and France espoused the cause of Ethiopia, though it had been thought they considered the co-operation of Italy in the league of more importance than justice to the African realm. The heated debate was closed when Capt. Anthony Eden, British foreign minister, said:

Haile Selassie

"Enough of this nonsense! There never has been any sufficient ground to unseat the Ethiopian delegation."

Sir Samuel Hoare, first lord of the British admiralty, added to Italian resentment against Great Britain by declaring in London that the British intended to maintain their supremacy in the Mediterranean and would modernize and consolidate their naval, military and air defenses between Gibraltar and the Suez canal, "in the light of recent experience."

Typical Criminal, 1936, Is Lazy, Vain Youth

CHIEFS of police of the United States and Canada, attending the convention of their international association in Kansas City, drew this picture of the typical American criminal of 1936:

A lazy, vain, moderately educated city youth whose parents have separated; shielding his laziness and an inferiority complex behind a false bravado that leads him into crime; motivated by a desire to impress "the girl friend" with a flashy appearance of wealth.

Chief William J. Quinn of San Francisco said the large majority of the 6,000 inmates of San Quentin prison are under twenty-four years of age and that 96 per cent of them come from broken homes.

Canada, according to Chief Constable George Smith of Winnipeg, does not differ from the United States in respect to its young thief problem. He said: "Kids start in at seventeen or eighteen stealing cars for joy rides."

These criminologists believe the time to "rehabilitate" the youthful criminal is immediately after his first offense.

Strike Breakers Probed by Senate Committee

SENATOR LA FOLLETTE'S senate committee on civil liberties, investigating the activities of strike breakers, was told that a preacher was hired as a spy, girls did undercover work, picketers were scalded by live steam and strikers were electrocuted by secretly strung wires on company property. Witnesses testified, also, that men who direct crews of ex-convicts, panhandlers and sluggers take a small fortune annually from industry to combat labor unrest.

The inquiry is designed to aid in the preparation of legislation demanded by organized labor leaders to eliminate agencies which specialize in strike-breaking. It is not indicated that evidence will be heard on the other side of the question—the violent practices often adopted by strikers and their sympathizers.

Oregon Towns Destroyed by Forest Fires

FOREST fires in southwestern Oregon worked terrible havoc, and at this writing were still uncontrolled. The towns of Bandon and Prosper were entirely destroyed, eight persons losing their lives and 2,000 being left homeless. Thousands of refugees were sheltered in a tent city, and that, too, went up in flames. Armies of foresters and volunteers were working desperately to check the conflagrations and rescue those in peril. The property damage, including destroyed timber, may run above $2,000,000.

Maritime Commissioners Named by President

THREE members of the maritime commission authorized in the closing days of the last congress were appointed by President Roosevelt. They are: Rear Admiral Henry A. Wiley, U.S.N. retired; Rear Admiral Harry G. Hamlet, coast guard; George Landick, Jr., chief of the planning section of the procurement division of the Treasury department.

The commission will administer the ship subsidy measure, act as a regulatory body in conduct of merchant marine affairs, and operate generally in the nature of the interstate commerce commission.

American Legion Names Colmery Its Commander

VETERANS of two great conflicts, the World war and the Civil war, held their annual conventions, the American Legion meeting in Cleveland and the Grand Army of the Republic in Washington. The legion elected Harry W. Colmery, a lawyer of Topeka, Kan., as its national commander and awarded next year's convention to New York city. Mayor La Guardia personally led the Gotham delegation in the big parade. This delegation included an impressive display of police and fire department bands, motorcycle squads and mounted officers.

Harry W. Colmery

In its business sessions the legion adopted a resolution asking the United States government to withdraw its recognition of soviet Russia. Other resolutions approved called for a 90 per cent reduction in immigration quotas and deportation of all aliens who are anarchists, communists, or affiliated with the Third Internationale; the removal from public relief rolls of aliens who have not applied for citizenship; universal application of the fingerprinting system in this country, and an investigation of methods used in disseminating "subversive doctrines."

C. H. Williams Ruhe of Pittsburgh, who ran away from home 72 years ago to join the Union army when he was only a lad of fifteen, was unanimously elected commander-in-chief of the G. A. R. and Madison, Wis., was named as the encampment city for 1937.

New Wage and Hour Law Formally in Effect

THE Walsh-Healy act, setting wage and hour standards for certain concerns doing business with the federal government, is now formally in effect. The law was passed just before the last congress adjourned. Its chief provisions are requirements that holders of government contracts which amount to more than $10,000 must pay prevailing wage rates and pay overtime wages if their employees work more than forty hours a week.

GOOD LIGHT never was so cheap!

Reading music and reading books are much alike in their demands upon the eyes. Those wrong notes or passages that seem difficult may be due to insufficient light, rather than inattention. Practice becomes easier when eyes do not have to squint and foreheads wrinkle. Good light at the piano is as important as good light for reading or study. Insufficient or wrongly placed light is often the beginning of eyestrain. Good light makes all eye work easier and practice more enjoyable and more effective.

Science has now determined how much light we need to see easily and comfortably. It has also made a device, the Light Meter, which measures your lighting in a jiffy. You see for yourself the story of your lighting on a dial, as you read the story of temperature on a thermometer. How does your home lighting measure up? We will be glad to show you. There is no charge for this light testing service.

Letters on Airplanes

The letter "C" preceding the number on an airplane is used for commercially licensed aircraft not used solely for governmental purposes or belonging to states or their subdivisions, nor engaged in racing or experimental work or specially licensed for other purposes. The letter "N" must precede the license symbol and number on licensed aircraft engaged in foreign air commerce and, at the option of the owner, may precede it on other licensed aircraft, provided that aircraft licensed for experimental purposes shall not display the letter "N."—Detroit News.

MORNING DISTRESS

is due to acid, upset stomach. Milnesia wafers (the original) quickly relieve acid stomach and give necessary elimination. Each wafer equals 4 teaspoonfuls of milk of magnesia. 20c, 35c & 60c.

Watch Your Kidneys!

Be Sure They Properly Cleanse the Blood

YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained.

Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, puffiness under the eyes; feel nervous, miserable—all upset.

Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

DOAN'S PILLS

It's Season of Intriguing Woolens

By CHERIE NICHOLAS

THE new woolens are having their day and a grand and glorious day it is, marked with new triumphs in color, n designfulness and versatile weave. They are grand and glorious beyond description and they have taken on a sheerness and featherweight texture that adds much to their lure. With the college girls the thought of a back-to-school wardrobe that does not include a costume suit fashioned of handsome wool is inconceivable. And so it's wool-gathering these fair collegians are going with all the enthusiasm of youth that sets forth to get what it wants.

Not that college-faring girls are the only ones engaged in the wild scramble to be first in fashion by going stepping in a brand new autumn ensemble styled of chic and handsome wool weave. Fact is every woman who is fashion-wise is making one grand dash in the direction of the glamorous wool fabric sections, which is exactly what she should be doing to be smartly apparelled in the days to follow.

Among the woolens to meet the rapturous gaze of the woman in quest of modish materials for her fall costume are the most enticing jacquard-patterned weaves fancy could possibly picture. These are that new you will get all the thrills that come with having a forward look into fashion futures. In these jacquard wool weaves the patternings are woven right into the material. Then there are the cunningly embroidered woolens which promise to be quite the rage. These make up ever so smartly in tunics, and waistcoats. They come in pretty florals and bold coin dots and other clever motifs mostly wide-spaced but not infrequently all-over designed. As to wool plaids and stripes and checks their name is legion. The big idea right now is a gay plaid skirt with monotone blouse or sweater. The flaring plaid tunic is also outstanding in the new stylings. As to the fantastically nubbed tweeds that are so important this season, everyone who sees falls prey to their wiles at first glance.

Designers are playing up the new woolens for all they are worth, using them by the two's and three's in combinations that stress striking contrast both in color and weave.

Two of the three models in the picture make contrast their theme, in use of versatile woolens. The ensemble to the left can be worn from early fall to early spring in perfect comfort, with or without its matching coat. Here a plaid rabbit's woolen dress in pencil silhouette with a high surplice bodice and a bright velveteen ascot has a plain rabbit's hair tunic coat with double-breasted front and wide revers of the plaid. The new "swing" effect is achieved with unpressed box pleats that start from the waist.

To the right in the trio a striped rabbit's woolen plays in duet with a plain rabbit's wool weave. The dress in pencil silhouette has as complement a flared tunic coat of the plain wool with tuxedo fronts of the stripe. A bright velveteen ascot and belt buckle match the color in the stripes. The dress is ideal to wear under a separate winter coat later on.

Centered is a cape outfit of jacquard tweed. It is this sort of novelty woolens that is glorifying the fabric style picture just now. The raised shoulder line which is the much-talked-of new silhouette is carried out in sunray tucks. The long sleeved dress has a flared skirt. The popular stand-up collar adds a keen touch, also a patent leather belt to match the patent leather shoes.

© Western Newspaper Union.

ROSE DECORATIVE THEME FOR AUTUMN

Newest feature of this season's costume flowers is the American beauty rose. Singly, or in clusters, it is worn with full-length stem almost to the knee. The flower, flatteringly soft and graceful, is posed just below the shoulder.

The rose motif is also prominent on printed and blocked scarfs and in formal chiffon evening handkerchiefs. Rich evening brocades follow the romantic mode in large all-over rose or leaf designs. Rose patterns have all the old-world air so typical of the Victorian and Edwardian revivals that are dominating the fall modes.

Accents of rose on black are a leading theme for fall: copper-rose buckles, necklaces of rosy crystal, touches of lace in a faint blush-rose, nail polish in old rose with faintly smoke-blue undertone. Polish this autumn is going romantic, along with everything else. Soft shades of old rose, coral, mauve—or if you're wearing gold or autumn-leaf red, a new light rust polish—faintly echo the undertone of the gown or its accessories.

Hard Game

Cracked skulls and broken arms are not unusual among players of Jai Alai, the Spanish game. Players have to handle a ball half the size of a baseball and almost as hard as a golf ball at terrific speed. A "softer" game was needed for less reckless athletes. So American "soft ball" is being introduced.

Slang of Old

A century ago American slang was as picturesque as it is today. Then a widow was called an ace of spades, watered whisky was baptized liquor, a convict was a canary and a physician was a crocus.—Collier's Weekly.

Distinguished Merit

Distinguished merit will ever rise to oppression and will draw lustre from reproach. The vapors which gather round the rising sun and follow him in his course seldom fail at the close of it to form a magnificent theatre for his reception and to invest with variegated tints and with a softened effulgence the luminary which they cannot hide.—Robert Hall.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Loquaciousness

"Last Resource" makes ugly itchy PIMPLES DISAPPEAR IN 3 WEEKS

"Disagreeable surface pimples and bright red patches broke out on my face and forehead. They itched and my appearance made me miserable. I tried several ointments to no avail. Then I purchased some Cuticura Soap and Ointment and in three weeks my complexion was clear and smooth again." (*Signed*) Miss S. Fortier, 959 Worcester Ave., Pasadena, Cal.

Wonderful relief for pimples, rashes, itching and burning of eczema and other skin and scalp conditions of external origin when you use Cuticura. Buy BOTH today. FREE samples by writing "Cuticura" Dept. 33, Malden, Mass.—Adv.

The Term Legitimate

Some fifty years ago the term legitimate was applied in theatrical usage to dramatic productions that followed classic lines—to the plays of Shakespeare, for instance—and distinguished those plays from farces, burlesques, or extravaganzas. The usage of today has broadened, and an actor in "the legitimate" is an actor, other than a vaudeville performer, who appears upon the actual stage as distinguished from one appearing in motion pictures.—Literary Digest.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 60 years ago. They regulate liver and bowels.—Adv.

Make 'Em Human

Men in the public eye do not mind anecdotes made up about them if the anecdotes are smart.

DYSPEPSIA?
Get This 2-Minute Relief

STAR DUST
MOVIE AND RADIO
By Virginia Vale

CAROLE LOMBARD is a happy girl these days. When Alice Marble defeated Helen Jacobs at Forest Hills, N. Y., and became our national tennis champion, everybody wanted the racket with which she won. She was deluged with telegrams asking for it.

But Carole's telegram arrived first, and Carole is an old friend—so she got the racket. And as all Hollywood is tennis-mad, (as well as polo-mad and football-mad) that was something to cheer about.

Incidentally Alice Marble, who is very pretty, was asked if she'd like to go into pictures. She said she wouldn't; that she'd visited some of her friends when they were on the set, and that they worked far too hard to suit her. She's going in for radio instead.

—★—

Well, Joan Blondell and Dick Powell finally got married; had the ceremony performed on the ship on which they were sailing through the Panama canal and on to New York for a very gay honeymoon. They were lucky to have three whole weeks between pictures; as it was, Dick had to plan for a broadcast the minute they landed in New York.

Joan Blondell

Joan and Dick are among the most popular stars of Hollywood. They will carry the best wishes of millions of movie fans throughout the country.

—★—

Mary Carlisle has come along fast since she was just one more of the pretty, blonde girls of whom Hollywood was so full two years ago. They had pretty figures, they were cute—but it was hard, sometimes, to tell them apart.

But see Mary in "Lady, Be Careful" with Lew Ayres, Buster Crabbe, and some other awfully good young actors, and you'll realize that she has developed into a fine young leading woman. It's a riotously funny picture, made from the successful play, "Sailor Beware" which had to be done over quite a bit before the Hays office would let it go through.

—★—

Leslie Howard has made no secret of the fact that he didn't want to go on making pictures in Hollywood. About to do "Hamlet" on the stage in New York, at last, he has also let it be announced that he is one of the organizers of a new motion picture company, called Associated Artists. Dudley Murphy, who has had some experience as a director in Hollywood, and Hugh Walpole, the novelist, are associated with him in the company.

Leslie Howard

It will be made up of stars, writers and directors, working on a co-operative basis. And if it works, watch out for a similar organization here.

—★—

ODDS AND ENDS . . . Hollywood is still shocked by Irving Thalberg's death . . . George Brent is planning now to go to London for the coronation next spring . . . There's a dearth of young leading men in Hollywood . . . "Give Me Your Heart," Kay Francis' newest picture, is one of her best, and once again she proves her ability to wear lovely clothes better than most of the girls in Hollywood do . . . Ruby Keeler and Al Jolson celebrated their eighth wedding anniversary the other day . . . Paramount pays George Raft as much money as Metro pays Clark Gable . . . Frank Morgan's mother, one of the country's most successful business women, died recently at the age of eighty-four.

Pajamas That Give Ease and Warmth

This suavely tailored club style pajama set is the essence of simplicity. Whether your cotton, satin, silk crepe, pongee or rayon is expensive or not you won't be taking a chance with pattern No. 1923-B for step-by-step sewing instructions are included and guarantee to guide your every stitch.

College girls approve its conservative styling — busy housewives find them adequate to greet the unexpected guest and the business girl revels in their comfort and ease assuring details. The trousers are amply cut and the soft blouse roomy enough for any 12 to 20's daily dozen. A natty pointed collar, wide cuffs and belt add an air of distinction to your garment.

Barbara Bell Pattern No. 1923-B is available for sizes 12, 14, 16, 18 and 20. Corresponding bust measurements 30, 32, 34, 36 and 38. Size

1923-B.

14 (32) requires 4⅛ yards of 39-inch material. Send 15 cents in coins.

Send for the Barbara Bell Fall Pattern Book containing 100 well-planned, easy-to-make patterns. Exclusive fashions for children, young women, and matrons. Send fifteen cents for your copy.

Send your order to The Sewing Circle Pattern Dept., 367 W. Adams St., Chicago, Ill.

Smaller Waists, Skirts Up Two Inches, Fall Forecast

Shorter waists—by at least two inches — are forecast for women next fall.

Other predictions at a semi-annual fashion clinic for store executives:

Waist lines will be smaller.

Shoulders will be broader.

Skirts will be fuller.

Clothing will be richer in tone, but not so brazenly bright.

There will be a "tremendous vogue" for casual clothes, versatile enough to be worn in the city and in the country, and to take part in all the travel increases.

Amos Parrish, who conducted the clinic he said was attended by executives from stores whose total annual volume exceeds more than $1,250,000,000, forecast a definite upward sales trend in all clothing and accessories.

Handsome Cloth Is Quickly Crocheted

Pattern 5193

Here's Fun for you—and Beauty for your dinner or tea table— in a lacy pattern which you can crochet so easily of string. It won't take you any time at all to learn the "sample" square design, on which all the others are based, and to crochet a goodly number of squares. When you've enough, join them to make a beautiful table cloth, bedspread, dresser scarf or pillow cover. Then sit back and wait for compliments!

In pattern 5193 you will find complete instructions for making the square shown; an illustration of it, of the stitches needed; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y.

Write plainly pattern number, your name and address.

Passenger Pigeon

Every species or subdivision of a species of domestic pigeon to be found in our country today had its origin in some European or Asiatic country, according to an authority in the Rural New-Yorker. North America, did, however, have a truly representative American pigeon, the Passenger pigeon, a wild pigeon whose natural habitat was the entire continent. This particular American bird would be with us today, had it not been for the unmerciful slaughter of it by those whose only thought was the making of "easy money," which brought about its extinction.

Tired Shark

Of all the articles that have been found upon and imbedded in fishes, one of the most unusual was an automobile tire which encircled the body of a shark discovered floundering on the coast of Cuba near Havana. Owing to its extreme fatigue from trying to free itself of this tight and cutting encumbrance, the shark was easily lassoed and dragged ashore by two boys.—Collier's Weekly.

Baseball Immortals Recall Days When Game Was Rough

BALLPLAYERS today — unlike those who starred through the last century from 1876 to 1926—must ever reserve true feelings from public gaze. They sit there in the shaded dugout, wishing somebody would get something started in the Old Timers' game.

Casey Stengel comes along, shoulders bowed under the toughest managerial job in baseball, head carried with proper pride because he has done his duty so well. A stout man attired in a sports costume that is a symphony of soft brown shades ambles up. They talk, unmindful of onlookers tingling with anticipation of conflict and the knowledge that this is another celebration of the birthday of the national game.

"'Member when I first saw you, Babe," says Stengel. "We were playing an exhibition in Baltimore and you were just a long, lean, gangling kid. I played back a bit further than I ordinarily would for a pitcher, but, after you'e taken a cut or two, you slammed one over my head.

"When I came back to the bench Robby, who never liked to lose one and was particularly anxious to win in Baltimore anyhow, hopped all over. 'Hell,' I says, 'that was only a bush league pitcher and ——.' Well, sir, that Robby really gets mad then. 'Lissen, young fellow,' he says to me. 'You get that stuff right outta your mind. When you see a guy take a cut like that, that ain't no pitcher even if he misses. That's——!'"

Casey Stengel

A sturdy, elderly man attired in Pittsburgh uniform, has seen them and is coming across the field as fast as bowed legs will carry him.

"Every time I see you you get me arguing again, Hans," says Babe.

"You were a swell fielder and of course you could outhit him, but I never could decide whether you or Heinie was the greatest Wagner I've ever seen. That Heinie was a swell fielder. When I was pitching for the Red Sox we used to have a signal to catch runners off second base.

"We'd count one, two, three, then wheel and throw. Heinie'd be right on top of the bag and we'd nearly always get the runner."

"Boys sure were tough," interrupts Stengel. "Remember, when you were a rookie and tried to get a turn at the plate, how those veterans really would pour it on you."

"Sure, sure," says Wagner. "And if you forced yourself in and got a turn up there, like as not they'd break up all your bats.'

"Yeah," it is the Babe's turn. "When I joined the Red Sox I got in at noon and pitched my first game at 2 o'clock. Won it, 2 to 1. Next day I was warming up and I let a ball through and it sort of nudged Smokey Joe Wood. Joe threw one back and if I hadn't ducked just in time it'd have brained me.

Babe Ruth

"So I challenged him but somebody stopped it then and after the game somebody stopped it again. So I told Bill Carrigan, who was manager, that I had something to say I wanted everybody to hear. So Bill says go ahead and I say I don't care much for anybody on the club and I'd be willing to take them on one at a time.

"Well, nobody come on and after that I never did have a bit of trouble on that team."

"Quite a man that Carrigan," says Stengel. "Remember the time I first came up to bat against you birds in the '16 series? Carrigan's catching back there.

"'You look like you might make a pretty fair hitter for a young fellow,' he cons me. 'Stand up there nice and everything like that. Don't want to make any mistakes about you. Guess we'll sort of have to pitch to you for a while and find out——.' Wham! I drop to the dirt just in time. Ernie Shore's out there pitching and he's thrown one right at my head.

But now more and more old timers have swarmed into the dugout. Burleigh Grimes, wearing a broad-rimmed black hat as befits the manager of the Louisville Colonels; Charley Hargreaves, Al Mamaux, Frank DeHaney, Mickey Welch, Arlie Latham, Chick Frazier.

• • •

Picked Up Here and There—Rumormongers whisper the only reason Gene Venzke does not turn pro is that nobody mentions the sort of money Jesse Owens expects to make. Also that if open track meets become any sort of success Gene immediately will hop on the band wagon but that, meanwhile, he doesn't dare chirp about such things for fear of getting in wrong with the badge-wearing poo-bahs. Gene, by the way, now carries a cane. It is a broken and discarded javelin he picked up on the Berlin Olympic field.

Frankie Neil's Cauliflower COLYUM

Madison Square Gardens, that's where they do it. Be there next thanks I'll get from you for this friendly tip.

• • •

Last night the program included a first go between Sal Rentura, 118, San Jose, and Walter Del Carlo, alittle but tough hombre who walked away with the decision.

• • •

Jack Kennedy, San Francisco 126-lber and opponent Peck Statin boxed a very nice scientific match, pleasing to watch. A draw.

• • •

Husky George Proio, 154-lb dynamiter from San Francisco took on Frank Fernandez from San Josie which place could not put over a winner las night.

Came Chris Barroza of Hayward took on Stanley 1936 Ketchel of Richmond. Stan has the makings when he gets on to it a bit. He had Barrozza down for a single count twice in the first round; and then started sailing, diving, dipping, turning, flying, but Barrozza rested in his hangar, and when the storm subsided wades in, and the judges gave a decision to Barrozza, and what a lot of booes THEY received.

• • •

Now, our friend Walter Del Carlo tried to give Ben Terry a a knockout. Carlo earned the decision.

FOOTBALL

Unquestionably one of the best gridiron games of the season was the St. Mary's-California game of last Saturday. The Gaels triumphed in the classic, 10 to 0; and they deserved the win. But anyone who thinks the Golden Bears are not a real football team has another think coming. We look for them to finish the rest of the season undefeated.

Tommy, the printer, doesn't think so. He's for Stanford and if you think he liked the blind referee in tht Washington State-Indian game, you're crasy.

Nevertheless this writer is puling for the Bears to win the Conference; and, if either St. Mary's or Santa Clara g through the season undefeated, for the winner of "the little big game" to play in the Rose Bowl. After all, it is the "big game" this year from a standpoint of football excellence.

Well, here's the next bout, its it—Ybarra from Concord; Oliveras from King City—both boys hitting hard, Ybarra doing most of the punching in the first stanza until along comes Oliveras and Judges get another booing, all a part of the fun down there at Madison Spuare Gardens.

an off night last night.

Jimmy Duffy was the referee & did a nice job of it.

BASEBALL

Well, the Yanks they win in 6 games, and everybody had expected them to cop in the minimum of four. However, the fans got more than their money's worth in any one of the half dozen it took to play out the series. And we still know, as all Americans do, what is our real national game. "Lefty" Vernon Gomez, former Richmond Union High School star, now a Yank pitcher, was one of the brightest of the stars.

Japan's New Parliament Building in Tokyo

View of the recently completed parliament building in Tokyo, constructed at a cost of about $15,000,000 of materials produced in Japan. The sixty-ninth session of the Japanese diet or parliament will have the honor of first occupying the structure, toward the latter part of this year.

They Knew and Worked With Edison

The booth of the Thomas Alva Edison foundation at the electrical show in Grand Central Palace, New York, was the gathering place of an interesting group of pioneers who worked with Mr. Edison in the early days. Looking at a model of the first hydro-electric plant in this country; that was built in Appleton, Wis., in 1882, are, left to right, W. S. Mallory, secretary and treasurer of the Thomas Alva Edison foundation and co-worker with Edison in 1889; F. D. Potter, who joined Edison in 1882 and helped in the installation of electric plants, and H. A. Campbell, who helped Edison in New York in 1882.

Keeps Eagle Eye on Penn Gridsters

Something new in football fans is this falcon, "Blue Beauty," shown with its owner, Alva Nye, of Chevy Chase, D. C., at a workout of the University of Pennsylvania grid squad. Nye, who is a regular of the varsity squad, raises the falcons for a nobby. This one will be seen on the bench throughout the coming season.

American Legion Convention in Session

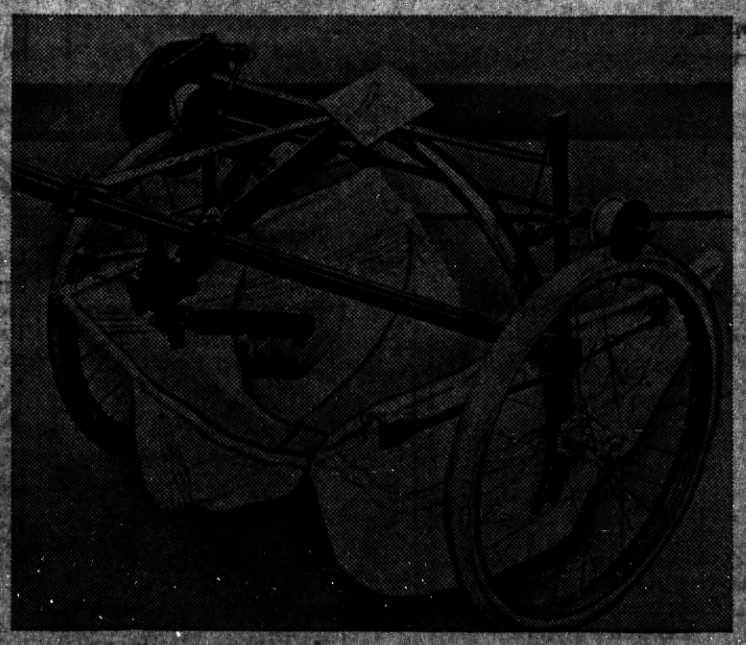

General view of the Cleveland auditorium with the American Legion annual convention in session. More than ten thousand veterans were present.

"INFANT IN POLITICS"

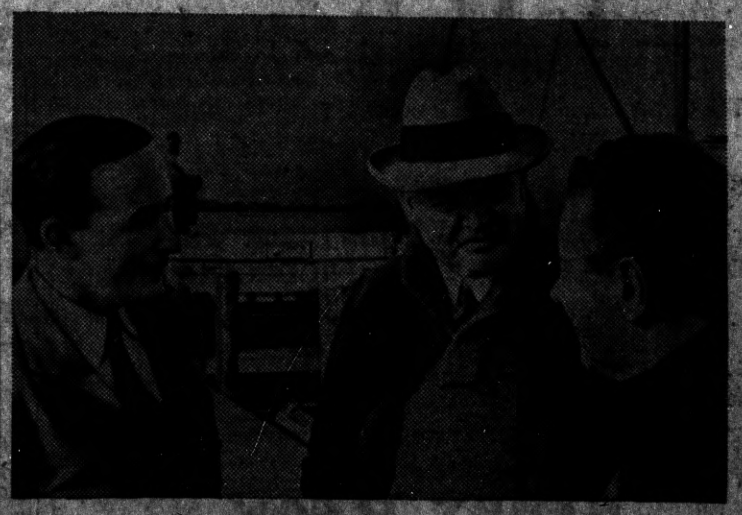

Dean John R. Murdock of the Arizona State Teachers college at Tempe, Ariz., a self-styled "infant in politics," who defeated eleven Democratic candidates for the state's long congressional seat. His nomination is considered tantamount to election. He will succeed Representative Isabella Greenway, who is retiring.

Made to Catch French Potato Bugs

This novel invention for catching potato bugs was recently demonstrated for the first time at the famous Concours Lepine in Paris. The wheels run in the furrows, straddling the plants so that the two bags drag along the ground on each side of the plants. The blade in the center swings back and forth, knocking the insects into the bags.

Two Big Ones Escaped, Says Hoover

Still smiling over his angling success, former President Herbert Hoover talks over fish and things with Lawrence Richey (left), his former secretary, and Arnold E. Rattray after their cruise in Block Island sound. In the four-hour fishing expedition Mr. Hoover and his party hooked five good-sized bluefish—with two of the largest escaping capture.

Grumblers in Life

They who complain of life as it is, have generally spoilt it through their own abuse of it.

Size of Hyde Park

Hyde Park, in London, with the adjoining Kensington Gardens, covers 630 acres.

ANSWER TO EDITORIAL

Space forbids the publication this week of a lengthy answer to our editorial "The Communistic Complex," Mr. Prater's reply, dealing with religious as well as political matters is quite involved and we shall ask him to 'boil it down' for use in the future.

To our unknown "subscriber" who sends us John D. Barry clippings, we have no bone to pick with Barry, he is a liberal American writer, that's good enough for us—internationalism, like sweet charity, begins at home,not in Russia.

Budapest Union of Two Cities

Budapest, the capital of Hungary, with a population of over a million, is a union of two cities connected by six bridges, Buda on the right bank and Pest on the left bank of the Danube.

Leap Year

Leap year comes every four years with the exception that of the centesimal years only those that are exactly divisible by 400 are leap years.

How Badger Hides

The badger, night prowling animal, if disturbed in the daytime, tucks its head and feet under its body to hide.

TIDE LAND DRILLING

(Continued from Front Page)

funds will go to tax relief, the other half to purchase and maintenance of state beaches, parks, and monuments.

(Ed.—Because of the fact that oil problems are of vital interest to a number of our subscribers who work for the Standard Oil Company, we telephoned Mr. Francis Smith, refinery manager, and later, at his suggestion, Vice President Patchin, to ask the position of the company on this measure. We were informed the company has not taken a stand on either side of the question. Our personal idea is to vote "yes" on Number 4—not altogether on account of this beauty and park business because when real money is involved, artistic ideas sometimes becloud the issue. But, as a business proposition, 14 2-7 per cent is more than a fair royalty, slant drilling into anticlinal structure even on the edge of the tidelands will probably rescue nearly all of the oil, and what moroe can we ask? We certainly do not contemplate having the state enter any such risky business as oil production.

Find Ancient Papers

Chinese and Japanese papers made of paper-making fibers peculiar to the Orient and said to date back to the Fourteenth century have been found.

British Museum Rule

When a specimen has been accepted for exhibition in the British museum by the trustees, it cannot afterward be taken out of the building without an act of parliament.

the chef at the Italian feed which followed. Other Past Commanders who were there included: Dobler, Barry, Sears, Tandy, Davis, Spires, Kinstrey and Burt. Past Commanders who were unable to attend were: Browning, Carlson, and Wierda; and a tribute of standing in silence in honor of Past Commander James T. Narbett who passed away only a few weeks ago.

Vice Commander Allen Kearney presided as Acting Commander, Commander Earl Wiles being confined to Fort Miley Military Hospital as a result of a serious auto accident last Saturday night in Richmond. He is recovering. An Earl Wiles Membership Drive is on now, to bring a measure of satisfaction to the convalescing commander. District Commander Henry Nason, of Martinez, attended the meeting, together with Legion notables from the county seat.

RICHMOND FORUM IS BEGUN AT MEETING HERE

(Continued from Front Page)

Lifetime jobs for John and Dick and Sam or George—the voters would just leave it up to Jim to replace them if any should die or get lazy—American form of government, wowie! Let's all go down to the Forum meeting a week from Tuesday night and find out what's going to happen to us.

A Constitutional Amendment

Remember if we vote such a damphool law into our constitution, it's our own fault—let's learn about it, and just who is sponsoring it. And this plan of town hall meetings seems to be plan to find out about it. Thinking people are asked to come. Naturally we hope that no bearded anarchists with smoking bombs will put in an appearance for if the sponsors of such an amendment could successfully brand the opposition as "red" they could easily get an amendment passed to require them to steal the linoleum off the courtroom floors and spend the proceeds for their own pin money!

Anyway, officers were elected at last night's meeting—Mrs. Adeline Stender was chosen president; Mr. Arthur S. Whitesides, vice president; Mr. E. J. Dingle, secretary-treasurer. Mr. Waddel the organizer seems to have done a fine job to start with— let us help the movement by attending the next meeting—October 20—there is no admission charge.

An Underground Ocean

Scientists believe that below a depth of six miles in the crust of the earth there are no pores or cavities in which water could collect. For this reason it is believed that the underground waters of the earth are all above that level. It is estimated that the total quantity of underground water in the crust of the earth measures about 565,000,000 cubic yards, or nearly one-third the amount of water in the oceans.—Washington Star.

Some Choke

Events in the Lives of Little Men

Such is Life
BY CHARLES SUGHROE

HA! HA! HA!

TURN OVER

"A fellow threatened today to put me to sleep."

"I am glad that he didn't do it, you do snore so."

Hardly Worth It

The conceited young man had talked about himself till the girl felt she could endure it no longer.

"It costs a great deal more than one would think to become a broad-minded and intelligent man of the world," he remarked, serenely.

The girl saw her chance and took it.

"I suppose so," she said, "and I don't blame you for saving your money."—Stray Stories Magazine.

True Enough

"Pa, what's a matrimonial bureau?"

"Well, son, it's a bureau with six drawers packed full of women's fixin's and one man's necktie."

Cut Both Ways

An old gardener always had an answer for everything. On one occasion he was told by his employer to mow the lawn.

"Cut it short," she said, "for an inch at the bottom is worth two at the top," says London Tit-Bits.

Donald did the work, and when it was finished he was offered a drop of whisky. The employer poured it out, but showed signs of stopping before she had filled the glass.

"Fill it up, ma'am," said Donald. "An inch at the top is worth two at the bottom."

Just Listen

Sneed—Does your wife ever listen to your advice?

Gnaggs—Yes; and that's all she does—just listen.—Pathfinder Magazine.

ON THE SANDLOT

Bugs—Hey, Mr. Spider, spin us a net between these posts, so we can play tennis!

UNFORTUNATE

"How well Marie keeps her age."

"Why shouldn't she? None of her friends want it."

Easing the Situation

The minister and his wife were receiving a visit from a woman parishioner when the minister's small daughter walked up to the visitor and gazing intently at her, said: "Oh, my, but aren't you plain!"

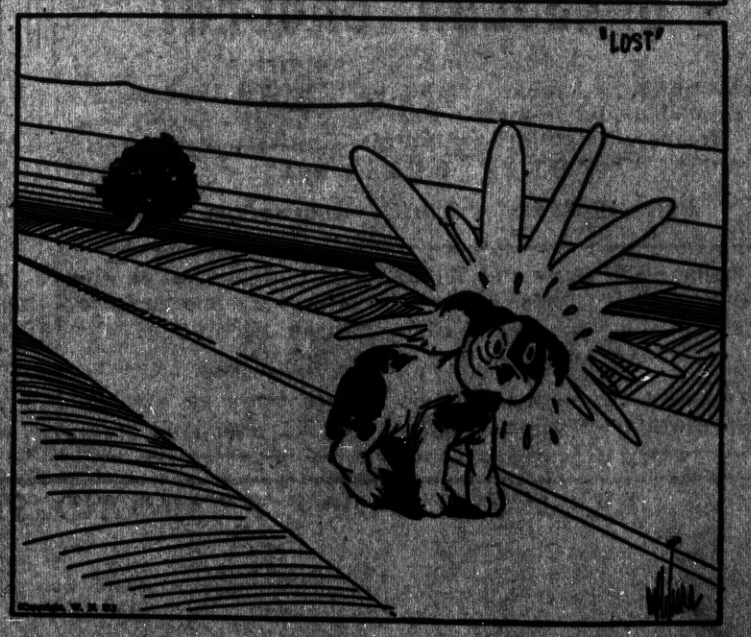

Her mother was horrified.

"Whatever do you mean?" she said. "Apologize at once."

"I only meant it for a joke," replied the child.

"Well," said the mother, "it would have been a much better joke if you had said: 'How pretty you are!'"

Along the Concrete

The Editorial Page of the POINT RICHMOND PROGRESS The Friendly Newspaper that Dares to Tell the Truth
HARRY R. BURT, Editor and Publisher

The POINT RICHMOND PROGRESS is a weekly newspaper published and printed each Friday at 24 West Richmond Ave., Richmond, Calif. Adjudged a Newspaper of General Circulation by the Superior Court of Contra Costa County according to Section 4460 of the Political Code of the State of California. . . . . Entered as second-class matter Feb. 15th 1935 at the postoffice in Richmond, California, under the Act of March 3d 1879. The price is 5c per copy; 75c for 3 months; $1.25 for six months; $2.00 the year. Our staff comprises: Harry R. Burt, Editor and Publisher; Katherine McCracken, Social Editor; and Thomas G. Ryan Printer. A Democratic Newspaper that is solidly behind President Franklin D. Roosevelt and the New Deal.

WHICH IS COCKEYED?

—o—

WHEN the Literary Digest reports a Landon lead, if only a slight one, in a sampling of more than 12,000 ballots from San Francisco, it all but convinces us that something is seriously wrong with the accuracy of the poll.

Consider the facts: Registration in San Francisc, all taking place since Jan. 1.19[illegible] stands at 201,294 Democrats to 109,210 Republicans, or nearly two to one.

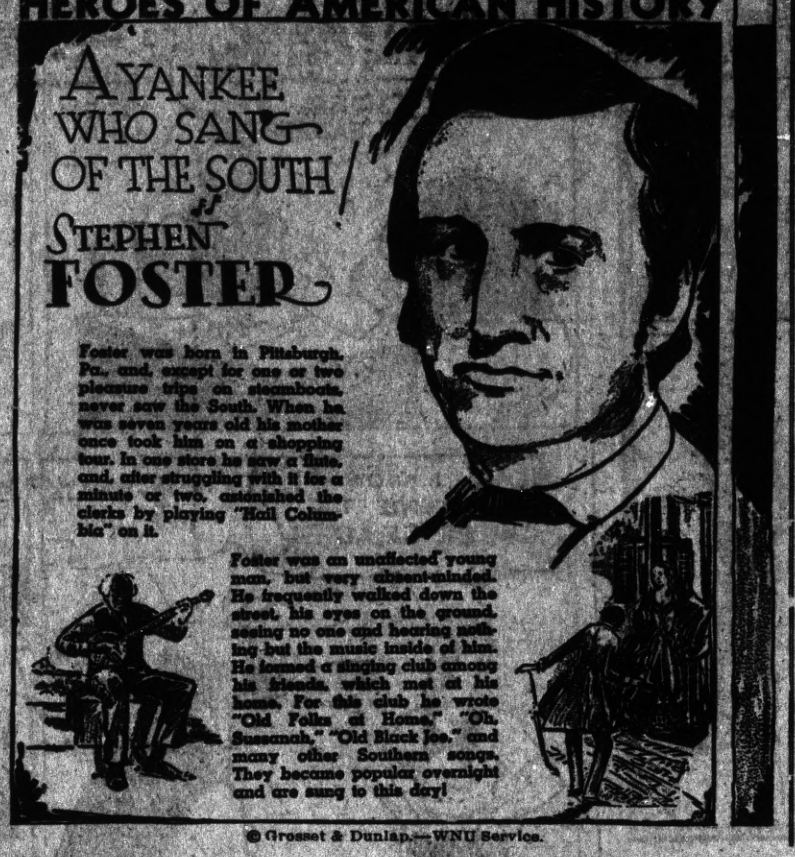

"But hold on!"says the Republican,"that was before we nominated the great statesman of Topeka. That was before Colonel Knox warned us about our insurance policies and Al Smith took his final walk at Pittsburgh. That was before those sterling Jeffersonian Democrats, Mr. Spinks of Palo Alto and Mr. Lawson, or was it Dawson, of San Francisco, announced they are leaving the party flat. That was before the Landon landslide began."

All right. Suppose we take the figures for the last day of registration, Thursday September 24. Nine thousand San Franciscans registered that day and three registered Democratic for every one that registered Republican!

Either the registration figures are cockeyed or the Digest poll is. Take your choice.

—THE SAN FRANCISCO NEWS

HEROES OF AMERICAN HISTORY

© Grosset & Dunlap.—WNU Service.

WHO ARE REAL CONSERVATIVES?

—o—

President Roosevelt did a public service Tuesday night when he defined a liberal as "the real conservative."

society a small percentage of its members win greater shares of the rewards than the rest. This is fundamentally proper. Without incentive to rise above a common level, society itself would stagnate. But it is not proper that such society should be frozen. New people born into it should be able to reach the top, if their heritage of intellect and their own efforts and goodness equip them to do so.

The tory would freeze society in the status quo. He, being the possessor of abundant material things, would have it that they should be kept in his family unto the last generation, without regard for the effect his might have on the opportunities of others.

These others, seeing or believing themselves deprived, very naturally rebel. And, therefore, the true conservative is the man who recognizes and advances the need for adjusting our American system to suit the changes that time brings. He acts to conserve his society, by making rebellion against it unneccessary.

Edward A. Filene, the great Boston merchant, is this kind of conservative. "Some think it strange," he has said, "that I, a hard-boiled businessman,should favor the New Deal; but I favor the New Deal because I am a hard-boiled business man.

"Some business men, to be sure, call the New Deal Revolutionary; but when one remembers the state of the country in March, 1933, he may well conclude that the New Deal has saved America from revolution.

"Some call the New Deal reckless experimentation; but the most reckless experiment in which America could engage will be to stop Roosevelt."

These words were spoken by Mr. Filene on the same day that the intolerably crass Colonel Knox told a Pennsylvania audience that "today no insurance policy is secure and no bank deposit is safe in the United States."

Mr. Knox is the conservative who does not conserve. He would destroy his soul in the fires of his own bitterness. He is his own worst enemy. It is such men that President Roosevelt is saving from themselves.—M. F. Small, publisher of the Feather River Bulletin.

(Editorial note: We consider the above editorial, taken from the News, as one of the sanest scripts produced in the present presidential campaign. We sometimes feel, those of us who are intensely partisan for President Roosevelt, that his re-election is so neccessary for the average American's happiness . . . well, when anyone, Hearst or anyone else, that has the nerve to mention "Roosevelt"or "communism"or "radical" in the same breath, that we grow apoplectic and feel like yelling, senselessy, "liar, liar, liar" and letting it go at that.

Now here is a man, Mr. Small, who has dispassionately shown, by his choice of thought and word, that which we have always known down deep in our hearts, that President Roosevelt, the ideal leader of the American people is safe, sane, a real conservative, if you will, albeit one who knows the box score, and isn't afraid to attack the HUMAN problems of this nation in a vigorous, purposeful manner.)

A WORD FOR THE BILLBOARDS

—o—

You know we take a particular pride on the Progress of being sort of an iconoclast newspaper, different from the other black ink-white newsprint sheets of whatever size, metropolitan or rural, daily or weekly. Certainly we are not commercial, no more businesslike than a country doctor.

So when we see the other papers going artistic and esthetic in their opposition to billboards on the bridge approach, it gives us a big laugh. Art? Heck, no! Competition to advertising columns is THEIR interest in the matter. As far as the art of painting is concerned, the argument is all on the side of the billboards. A Michaelangelo, Rafael, or Whistler would starve to death for all the help he would receive from the newspapers, whereas thousands of knights of the brush and palette receive something more than press notices from the outdoor advertising companies.
